LYMPHACTIVE

The Dynamic Presso-Massage

The True THE TRUE SPIRIT OF PAGANI

LYMPHACTIVE embodies the enduring, innovative and endlessly progressive spirit of PAGANI. It's part of a story that dates back over 70 Years to 1943 when Rolando Pagani built the first portable surgical device. A short while later, he designed a revolutionary new compact physiotherapy devices. The PAGANI drive to innovate and passion for technology and human care, made the transition into the Medical and Beauty Field inevitable. It was a move that reaped countless rewards on the world stage. All this is delivered by the new STAR **LYMPHACTIVE**, a striking device that adds yet another compelling dimension to the experience.

PAGANI DESIGN LANGUAGE

When it comes to the language of design, **LYMPHACTIVE** speaks fluent Italian. Wherever you look on the device, the messages are clear and compelling. Visual and functional highlights include all around LED and compact proportions.. **LYMPHACTIVE** is a mystical Italian beauty of medicine and the arts with a history of scientific development and refinement.

Feel good THE GREATEST WEALTH IS HEALTH

LYMPHACTIVE marks a decisive step forward into the use of presso-massage, which delivers an important element of enhancing the functions of the body and building a strong immune system. A balanced and properly functioning lymphatic system expels toxins, ensuring that the body is protected against infections through an efficient flow of liquid leaving the venous pathways (lymph) and returning cleanly back into the bloodstream.

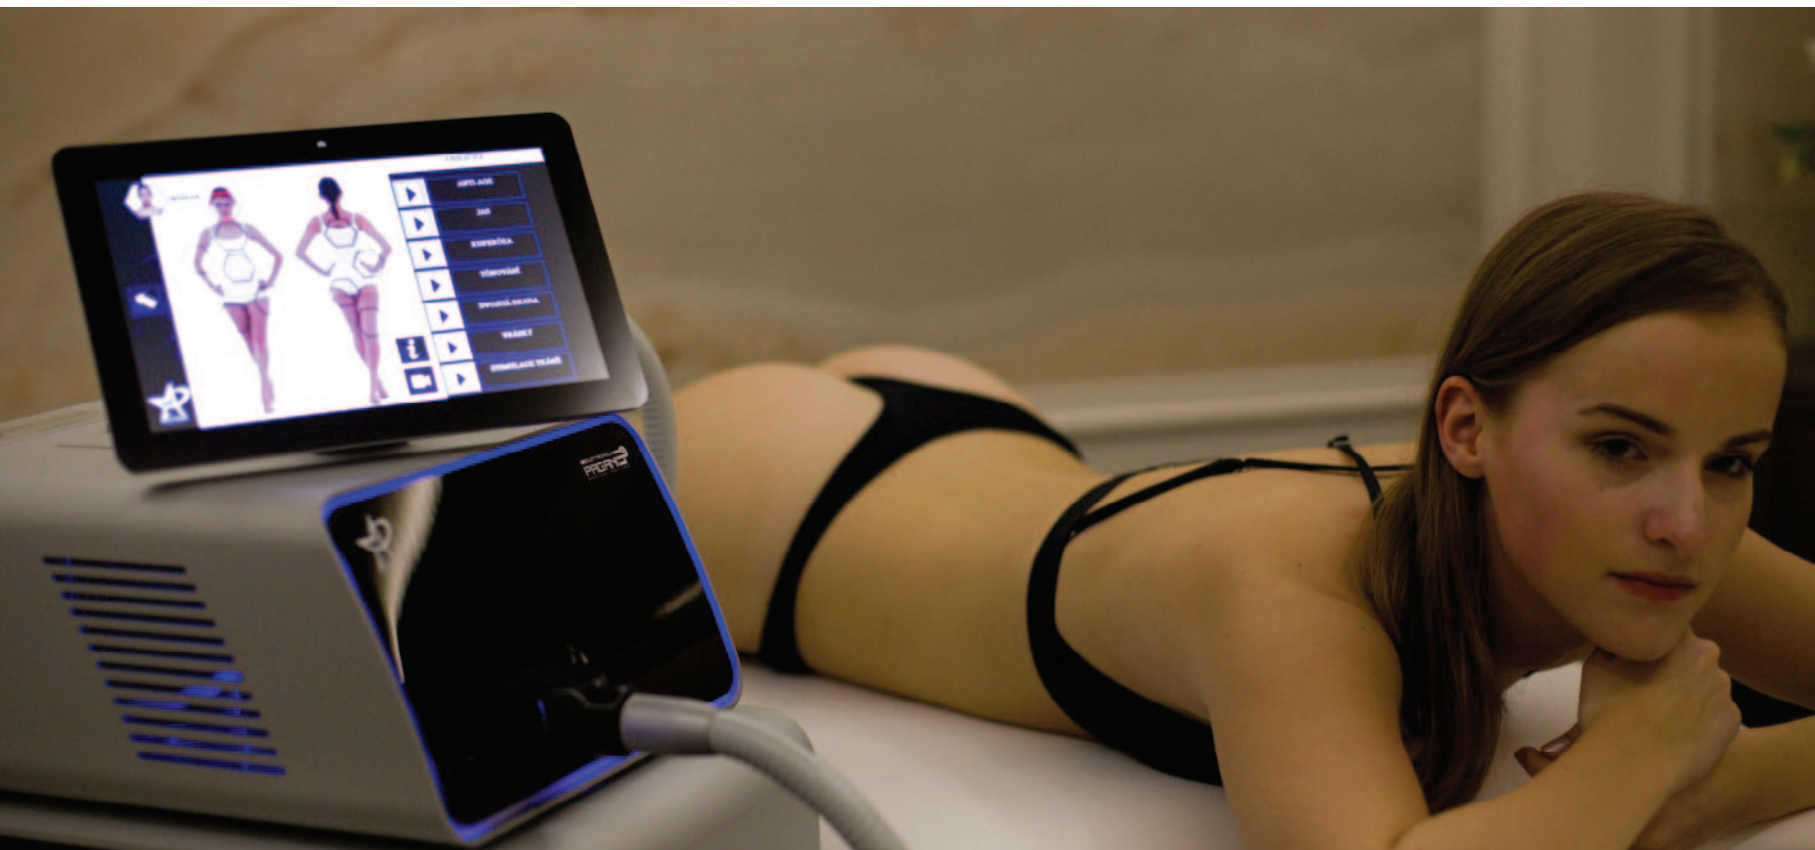

Improving Drainage

THE NATURAL ANSWER

LYMPHACTIVE is capable of performing a comfortable presso massage and is easily adaptable to be used on any size body frame as it is capable of performing a myriad of functions.

- Elimination of toxins and waste that are trapped into the lymphatic system.
- Rapidly soothes joint and muscle inflammation.
- Purification of the lymphatic system to assist in initiating weight loss and eliminating cellulite.

THE BEST IN DRAINAGE

Stimulating the body to ensure a proper functioning lymphatic system is useful to everyone, even athletes and those enjoying excellent health. Thanks to the improvement in circulation while stimulating the elimination of toxins and waste products it is particularly useful for those to enhance athletic recovery and performance. **LYMPHACTIVE** is an extremely useful tool for preventing and improving water retention, favoring an improved aesthetic appearance of the skin and can aid in preventing cellulite.

No miracle, only benefits

FAT ABSORPTION

Long-chain fatty acids (and other lipids with similar fat solubility) are absorbed to the lymph and are transported inside chylomicrons. While most nutrients absorbed by the small intestine are passed on to the portal venous system to drain via the portal vein and into the liver for processing, fats (lipids) are passed on to the lymphatic system to be transported to the blood circulation via the thoracic duct. Presso-massage delivers a detoxifying treatment, effectively sculpting body tissue by reducing trapped lymph and water from within the tissue. Through this very effective lymph, water and toxin drainage, we help restore the body's naturally occurring healing functions. Once revitalized and oxygenated the tissue slims and redefines.

Since 1947
MADE IN ITALY

LYMPHACTIVE is strictly made in Italy! It offers a modern interface, with a large touch-screen and intuitive software. It offers has a large library with specific programs for legs, arms, abdomen and hips and offers a range of pressures capable to satisfy everyone with pressures ranging from 10 to 200 mHg. At the end of each session, it automatically deflates the chambers which allows for an easy removal. Each element, thanks to a special overlapping "wave" of the chambers, is able to perform a sequential massage, simulating manual massage. Each element adapts to the size of each person, thanks to a convenient velcro securing solution.

The Dynamic *Presso - Massage* **PATENTED FIT FOR DYNAMIC** **PRESSO-MASSAGE**

Thanks to this patented system, the massage takes place in the natural orthostatic position and allows the possibility for the user to walk on a tread-mill. This vertical, in motion freedom allows **LYMPHACTIVE** to deliver results not obtainable by any other device. By transferring pressure from side to side, the lymphatic system is more effective in improving circulation, maximizing muscle toning, enhancing weight loss and slimming.
